LAB #8

Adv. CiC
Spring 2026

Agenda

1. Housekeeping
2. Retros
3. Data Warehousing
4. Lab 8 Exercise

Housekeeping

Due this past week

- Project pt. 4
- Lab 7

Upcoming

- Project pt. 5 - **3/26 @ 3pm**
- Lab 8 - **3/27 @ 1pm**

Announcements

1. Grade catch-up
2. Project regrades
3. Reading Responses

Questions

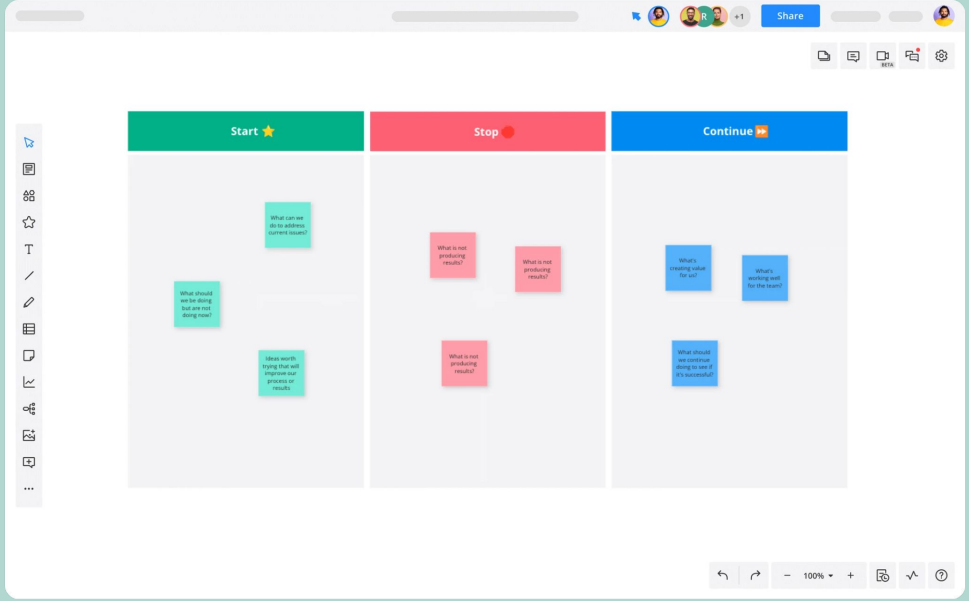
(on Lectures, Labs, or Readings)?

Retros

Why do we do retros?

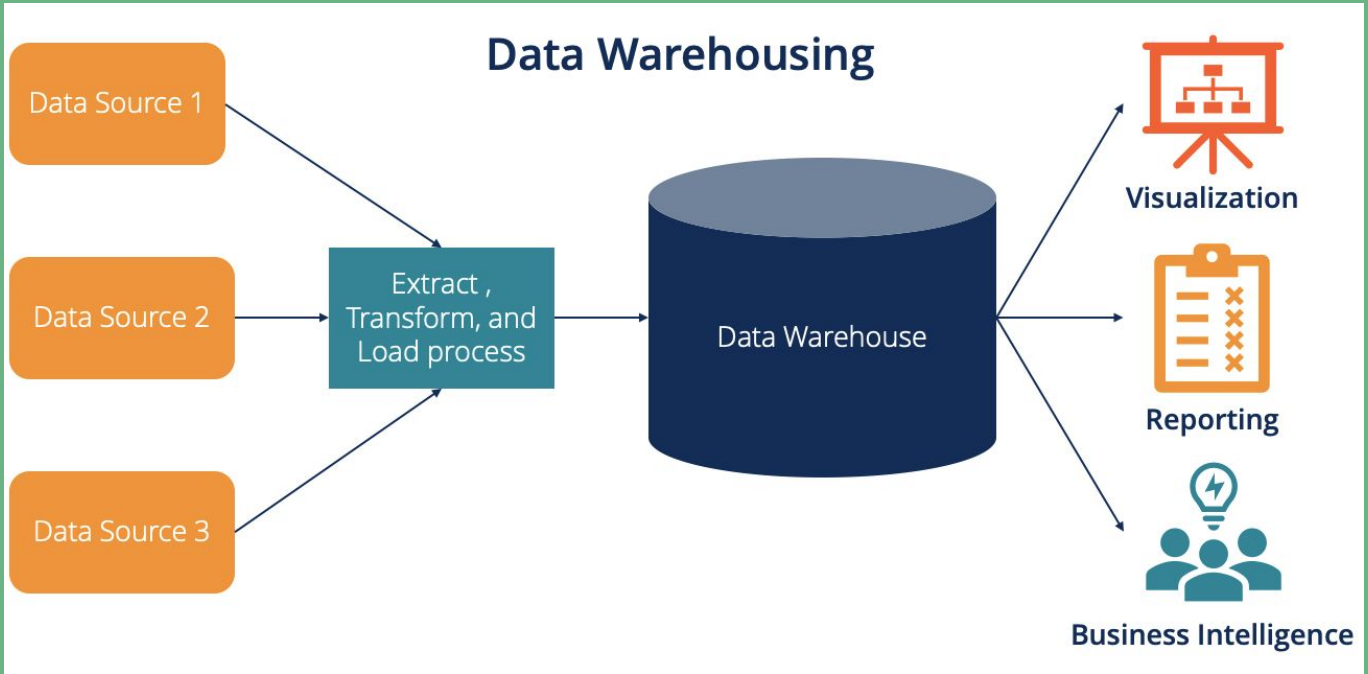
Retros help teams reflect on what worked, what didn’t, and how to improve next time.

- Reflect on what worked well, what didn't, and why
- Identify concrete improvements for team process and communication
- Focus on processes and decisions, **not blaming people**
- Make space for honest, balanced input from everyone
- **Hold retros after sprints, projects, or major milestones**



"Regardless of what we discover, we understand and truly believe that **everyone did the best job they could**, given what they knew at the time, their skills and abilities, the resources available, and the situation at hand."

Data Warehousing



Data warehousing brings together **cleaned, historical data from multiple sources** in one place, making it easier to analyze trends over time and support better decision-making

- **Append load:** adds new records to existing data without changing what is already there
- **Truncate and load:** clears the table and reloads the full dataset from scratch
- **Incremental load:** loads only new or changed records since the last update

I WILL FIND YOU
AND BRING YOU TO THE SPRINT RETRO
